

NEST

A Structured Framework for Teaching, Feedback, and Growth

NEST™ (Nurturing Education & Structured Teaching) is a simple, evidence-informed teaching framework designed to strengthen clinical teaching and build feedback literacy in competency-based medical education (CBME). By guiding faculty through intentional teaching, focused observation, actionable feedback, and learner-led goal setting, NEST transforms everyday clinical encounters into powerful learning moments.

What NEST Supports:

- Intentional, competency-aligned teaching
- High-quality formative feedback
- Learner reflection and self-assessment
- Goal setting and progress monitoring
- A growth-oriented learning culture

Our Mission:

To make teaching simpler, feedback friendlier, and learning more intentional—right where care happens. Transforming Feedback into Growth.
